Tense Electronics, is a Turkish producer company operating in automation industry since 2006 with executions in various countries.

With an expertised and experienced team, Tense Electronics is bringing novelties and adding values to automation industry every new day. By help of a dynamic R&D and production teams, we update our product portfolios continuously. Brought a contemporary approach and high quality solutions into the industry, Tense is not only offering industrial solutions but also developing products and software easing the life itself.

Having a motto like "Using the technology of tomorrow since today", Tense Electronics has been reputable with the innovative solutions and become a pioneer in automation industry since the first day of production.

Focusing on R&D activities in order to develop new technologies, Tense Electronics is inventing new product categories and solutions all the time.

Gathering a strong name in the international market after export operations, Tense is extending the production line, team and plant regularly in order to provide the orders coming from new accounts.

Having the production plant in Istanbul, the connection point of European and Asian trade, Tense Electronics is exporting to more than 85 countries including U.A.E., Egypt, Russia, Ukraine, Albania, Tunisia, Poland, India, Germany, Morocco Libya and also have dealers and represents in many markets.

The only company having authorization of Turkish Standards Institute on Reactive Power Control Relay products, Tense Electronics is also one of the rare companies holding CE, UKR-SEPRO and GOST-R documents on its products.

By help of our technical teams that provide superior pre-sales and after-sales services, we are aiming to provide the best product with best price in shortest time with fastest and most active customer service.

**Our goals are, with better Energy quality, energy efficiency, communication with  
energy tracking, compensation and automation solutions**

# COMING SOON

## TBM-53B INDUSTRIAL DISHWASHER RELAY

- Built-in Buzzer feature
- Washing process completed information
- With drain outlet (Rinse time + 7sec.)
- 5 Level washing time (30-60-90-120-180 sec.)
- Supply voltage 100V-240V AC
- 1 Contact output 220V AC/10A

## TTR-20AS ASTRONOMIC TIME RELAY

- Energy-free programming with NFC Feature
- 12 - 240V AC/DC Supply voltage
- 2 contact outputs
- Automatic geolocation information by cities
- Summer/Winter time setting
- Automatic operation according to sunrise and sunset
- On/off time can be adjusted
- 32 different programs can be added
- 24 Hour time setting
- Replaceable battery
- 5 Years battery life

## EM-08

### ADVANCED MULTIMETER

- Supports 3P4W and 3P3W (Non-Neutral) connections.
- 3 phase voltage (LN) min, max and average (V)
- 3 phase voltage (LL) min, max and average (V)
- 3 phase current, total current and 3 phase demand (I)
- 3 phase active power, total active power (Scalar) and demand (P)
- 3 phase reactive power, total reactive power (scalar) (Q)
- 3 phase apparent power, total apparent power (scalar) and demand (S)
- 3 phase import active energy (P kWh) and total
- 3 phase export active energy (-P kWh) and total
- 3 phase inductive reactive energy (Q kVarh) and total
- 3 phase capacitive reactive energy (-Q kVarh) and total
- 3 phase apparent reactive energy (S kVAh) and total

## TPM-06

### ENERGY ANALYZER

- Supports 3P3W (Without Neutral), 3P4W, Aron connections.
- 3.5 inch TFT Color Screen
- Micro SD memory card support up to 256 GB
- RS485 Modbus RTU
- Screen timeout protection
- Measures up to the 63rd voltage harmonic (LN and LL).
- Measures up to the 63rd harmonic of the current.
- 2 relay outputs (Maximum 5A 250V AC resistive load)
- Tariff T1, T2, T3 and T values
- Tariff2 PQ, -Q and S energy values
- Event records (high voltage, low voltage, power failure, voltage irregularity, high current, current irregularity, THDV and THDI limits)

## ERP-DX

### MULTIFUNCTIONAL TIME RELAY

- A Mode: On delay 10 sec
- A mode: 10 seconds on-delay
- B mode: 99 seconds on-delay
- C mode: 10 minutes on-delay
- D mode: 99 minutes on-delay
- E mode: 10 seconds off-delay
- F mode: 99 seconds off-delay

## ERS-08N

### MULTIFUNCTIONAL TIME RELAY

- 8 Pin socket input
- 2 relay outputs
- 2 Digit 7 Segment Display
- Time range from 0.1 sec to 100 Hours
- 6 function modes
- A Mode: On delay
- A1 Mode: On delay 0.5sec. one shot - Shot delay 0.5sec. single stroke, instantaneous contact
- B Mode: On delay 2- Delayed, instantaneous contact
- F Mode: Flicker - Equal time flasher relay off start
- F1 Mode: Flicker 1- Equal time flasher relay on start, instantaneous contact
- I Mode: Off delay - with instantaneous contact

## MDK-24

### SUBMERSIBLE PUMP CONTROL RELAY

- 2A – 40A
- With external current transformer (40A)
- High (250V) and low (170V) voltage protection
- Adjustable High/Low current protection.
- Voltage and current display
- Processor control that extends electrode life
- Adjustable electrode sensitivity.

## TDK-24 / TDK-24YU PUMP CONTROL RELAY

- 2A to 40A (TDK-24), 5A to 250A (TDK-24YU)
- 3 phase voltage and current display
- Adjustable high and low current protection.
- Adjustable high and low voltage protection.
- Processor control that extends electrode life
- Current asymmetry protection
- Current fuse protection
- Adjustable Star waiting time (TDK-24YU)

## TDK-96H

### COMMUNICATING SUBMERSIBLE PUMP CONTROL RELAY

- Protection between 1A – 250A
- RS485 Modbus RTU
- Electrodeless well control
- Number of Engine Stop/Starts and total operating time
- Easy-to-use menu
- Turkish and English language options
- Total Active Energy ( $\Sigma P$ ) can be monitored
- StarDelta contact output

# NOVELTIES

## RGM-12S

Reactive Power Control Relay

- 7 Different Compensation Programs
- Monophase(1 CT) connection
- Easy to Install and Use with 20mm. 4 Digit Led Display
- Can Only Compensate Inductive Systems
- Cos Phi value can be adjustable
- 1 alarm output and fan out
- Same Aging in Steps (In Certain Compensation Programs)
- Up to the 15th harmonic THD-I and THD-V Can Be Monitored
- Automatic Step Measurement
- Step Drive, Release and Discharge Times are Adjustable

Page : 6

## TDK-96

Submersible Pump Control Relay

It is designed for the control of submersible pumps and motors in wells and similar places and to protect them from negative situations that may arise from waterless operation, high or low voltage and current.

Page : 31

## RF-MOD-SET

RF Based Automatic Well-Tank Control System

Distance Between Well – Tank : ~ 5 km.  
Wireless Communication Supply with  
Solar Panel

Page : 12

## TAR-30

Earth Leakage Relay

A compact design driven by a microcontroller. CBCT connection monitoring facility. Monitors true RMS earth leakage current. The monitored leakage current range from 30mA to 30A. Leakage current and time delay adjustable. LED indication for measured leakage current and various user settings. Can be rest or test remotely by external button or from the device front panel button.

Page : 13

## TTOR Series

Toroidal Current Transformers

- TTOR Series toroidal current transformers are suitable for in-panel use.
- They are coated with epoxy resin and thanks to these features high precision and stable operation.
- Various hole diameters ranging from 45mm - 500 mm.

Page : 13

## ERV-DG

Power Off Delay Timer

- Time interval 0,1 sec. - 10 min.
- Supply Voltage: 100-240V AC
- 1 Contact output

Page : 29

## TPM-05A

Modbus RTU

Network Analyzer

Energy analyzers are designed to measure and monitor electrical values. With the communication feature, energy measurements can be monitored and reported independently. With energy analyzers, analyzes such as energy quality, efficiency and unit cost calculation can be performed.

Page : 11

## UVR-21

Under Voltage Protection Relay

UVR-21 Under Voltage Protection Relay is designed for preventing threephase devices to get harmed from long-term voltage fluctuations.

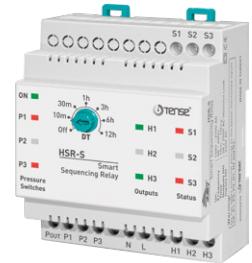

Page : 32

## HSR-S

Smart Hydrophore Sequencing Relay

Hydrophore sequencing relays are designed to regulate the number of booster that should operate according to the pressure and to ensure that the booster operates in equal time.

Page : 30

## FKV-03DF / FKV-03HF

Digital Phase Failure Relay

Over Voltage : 450V AC  
Under Voltage : 280V AC  
Asymmetry : %15  
Error Waiting Time : 2sec.  
Reset Time : 2sec.  
Phase Sequence Control

Page : 33

## ATS/ATSM

Split Core Current Transformer

ATS/ATSM

Split Core Current Transformer

Current transformers are designed to shrink the primary circuit current within the conversion ratio and transfer it to secondary circuit elements and to isolate the measurement and protection devices they are connected to from the high voltage system

Page : 14-15

## THE FIRST AND ONLY REACTIVE POWER CONTROL RELAY IN TÜRKİYE WITH A TOUCH SCREEN AND SVC

### RGT-12 SVC REACTIVE POWER CONTROL RELAY

- Easy setup and usage with 128x64 graphic LCD
- TCR (SVC) connection can be made.
- Up to 10 inductive load drivers can be connected.
- Generator input and generator compensation
- Modbus RTU over RS485
- Hourly, daily, monthly and total compensation rates can be followed.
- Can compensate inductive and capacitive systems
- Step value can be entered manually
- Single-Phase, two-phase and three-phase capacitor and shunt reactor can be connected
- Current harmonics up to 31st harmonic can be observed
- Voltage harmonics up to 31st harmonic can be observed
- Voltage, harmonic current / voltage, inductive and capacitive alarm output
- Adjustable discharge and settlement time, intervention
- Monitor cosine values of each phase
- Power factor values of each phase can be tracked
- Capacitive / active and inductive / active ratios can be monitored
- Total energies (import / export) can be tracked
- THD-V and THD-I values of each phase can be monitored
- Creating power analysis (20 samples 9999 min.)
- Min, max and average values of current and voltage for each phase can be monitored.
- Password protection
- Co-aging in stages

### Solar System Compatible RGT-MT18 SVC REACTIVE POWER CONTROL RELAY

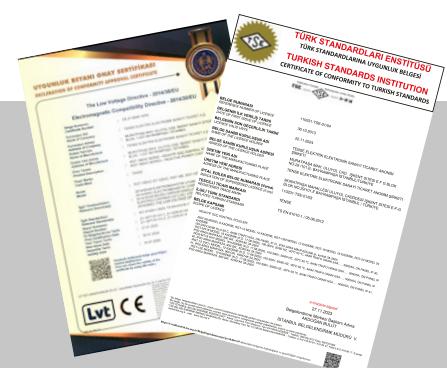

- Easy installation and operation with 5" touch (resistive) display
- TCR (SVC) connection available
- Up to 10 inductive load drivers can be connected.
- Generator input and generator compensation
- Modbus RTU over RS485
- Temperature measurement and control
- Can compensate inductive and capacitive systems
- Step value can be entered manually
- Single-Phase, two-phase and three-phase capacitor and shunt reactor can be connected
- English language.
- Voltage, harmonic current / voltage, inductive and capacitive alarm output
- Temperature alarm output
- Intervention, discharge and settlement times are adjustable
- Current harmonics up to 61st harmonic can be monitored
- Voltage harmonics up to 61st harmonic can be monitored
- Graphical monitoring of cosine values of each phase
- Power factor values of each phase can be tracked graphically
- Capacitive / Active and inductive / Active ratios can be tracked graphically
- Total energies (import / export) can be tracked
- THD-V and THD-I values of each phase can be monitored
- Creating power analysis (20 samples 9999 min.)
- Demand recording (active power, reactive power, apparent power and current demand)
- Min, max and average values of current and voltage for each phase can be monitored.
- Real time date and hour
- Password protection
- Gradual co-aging

### REACTIVE POWER CONTROL RELAYS WITH CERTIFIED SVC

We keep on empowering your power by bringing our Reactive Power Control Relay product into Turkish Standard Institution and CE.

High quality standards and innovative solutions in compensation systems.

RGT-MT18 SVC

RGT-12SVC

RGT-12E SVC

RGT-18E SVC

## SVC REACTIVE POWER CONTROL RELAY (TCR OUTPUT)

Up to 10 TCR (SVC) can be connected to our TCR (SVC) Supported Reactive Power Control Relays for higher powers.

### Standard measurement parameters of our Energy Analyzer groups

- It displays the summative (P1, P2, P3, P) powers of each phase.
- It displays the total apparent (S1, S2, S3, S) powers of each phase.
- It displays the total reactive (Q1, Q2, Q3, Q inductive or capacitive) powers of each phase
- It displays the power factors (PF) and Cosφ values of each phase.
- Displays the minimum, maximum and average values of phase-neutral and phase-phase voltage (V).
- It displays the sum (I1, I2, I3, Σ) values of each phase.
- Displays total import and export active ( $\Sigma$ kWh) energy.
- Displays total inductive and capacitive reactive (kVArh) energy.

Aesthetic Slim Case, easy assembly system. Thanks to the 180 degree terminal structure, there is no problem of cable bending.

## TPM-05A

Modbus RTU

- Supports 3P4W connections..
- Neutral current measurement via 4th current transformer input.
- Measures voltage harmonics up to the 55th harmonic (L-N and L-L).
- Measures current harmonics up to the 55th harmonic.
- RS485 Modbus RTU.
- 2 relay outputs (configurable), 1 digital input.
- Event logging (over voltage, under voltage, power outage, voltage imbalance, over current, current imbalance, THDV, and THDI limits).
- You can delete energies, demands, and event logs.
- Adjustable date and time.
- Real-time clock.
- Menu password-protected.
- 71.5 x 61.5 Custom Design Glass LCD.

## TPM-04SH-DL

Modbus RTU

- Supports 3P4W connections.
- Measures up to 31st voltage harmonics (L-N and L-L).
- Measures up to 31st current harmonics.
- RS485 Modbus RTU
- 2x relay outputs (adjustable), 1x Digital Input
- It displays the demands.
- You can delete energies and demands.
- The menu is password protected.
- Without display screen (LED display) and 53 x 31.5 Custom design glass LCD

## TPM-05

Our Top Model

- It supports 3P4W connections.
- Measures the 55th voltage harmonics (L-N and L-L).
- Measurements up to the 55th current harmonic.
- RS485 Modbus RTU
- 2x relay outputs (adjustable), 1x Digital Input
- Event logs (high voltage, low voltage, power failure, voltage imbalance, high current, current irregularity, THDV and THDI limits)
- Displays the demands.
- You can delete energies, requests and event logs.
- Date and time can be set.
- Real time clock.
- The menu is password protected.
- 71.5 x 61.5 Custom Design Glass LCD

## TPM-04 SH

Modbus RTU

- It supports 3P4W connections.
- Measures up to 31st voltage harmonics (L-N and L-L).
- Measures up to 31st current harmonics.
- RS485 Modbus RTU
- 2x Relay outputs (adjustable), 1x Digital Input
- It shows the demands.
- You can delete energies and demands.
- The menu is password protected.
- 71.5 x 61.5 Custom Design Glass LCD

## TPM-01E / TPM-01ES / TPM-01ESH

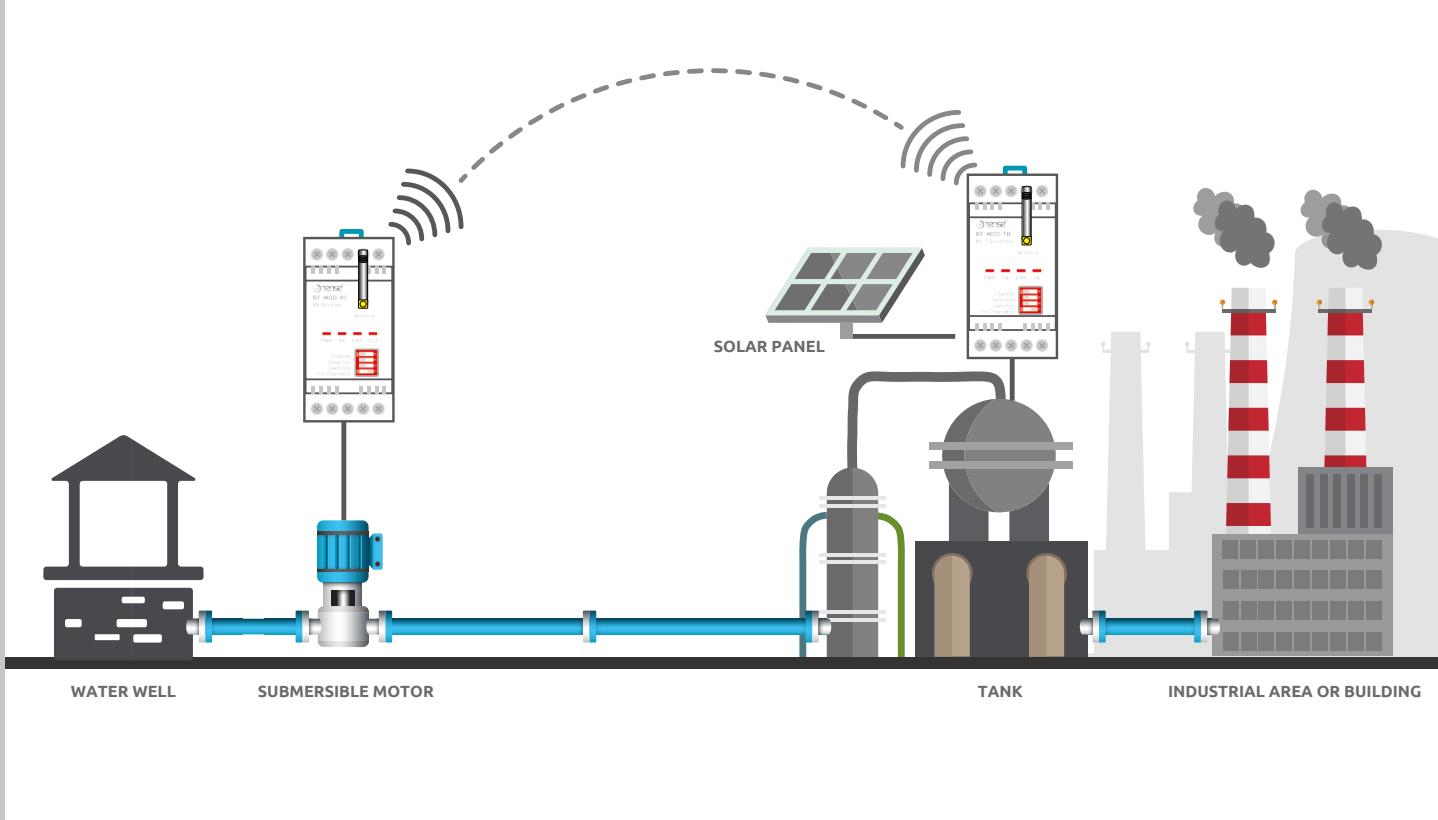

- It supports 3P4W connections
- Measures up to 31st voltage harmonics (L-N and L-L).
- Measures up to 31st current harmonics.
- RS485 Modbus RTU
- 2x relay outputs (adjustable), 1x digital input
- It shows the demands.
- You can delete energies, demands.
- The menu is password protected.
- 4 Row Led display

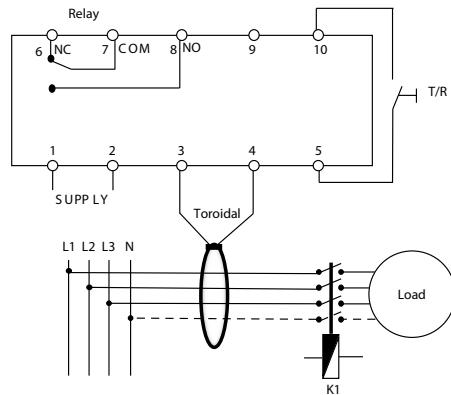

## REMOTE COMMUNICATION

| Product Code                                 | Description   |
|--|---|
| <b>OP-232</b>                                | Optical reader, communication via RS-232, neodymium magnet  |
| <b>OP-USB</b>                                | Optical reader, communication with USB 1.1 / USB 2.0, with neodymium magnet   |
| <b>USB-CON</b>                               | RS-232 USB converter and RS-485 USB converter, 300bps - 230.4 Kbps Baudrate, isolated   |
| <b>ETH-MOD-T</b>                             | Ethernet Modem, RS-485, TCP-IP compatible, 10/100 Mbps ethernet, isolated, ModBus communication, Maximum 115200 Bps   |
| <b>RF-MOD-SET<br/>(RF-MOD-TR+ RF-MOD-RC)</b> | Well Tank Communication System, ISM 868 MHz, GFSK Modulation, RS 485 Interface, Maximum 57600 Bps RF Communication Speed, Antenna: 9 dBi SMA Connector magnet mounting, Maximum 5 km communication distance (Provided that the antennas can recognize each other) |
| <b>HA-5</b>                                  | External antenna 5 dBi, 824 ~ 960/1710 ~ 2170 MHz, 3 Meter cable, SMA Connector, Magnet mount   |
| <b>HA-9</b>                                  | External antenna 9 dBi, 824 ~ 960/1710 ~ 2170 MHz, 3 Meter cable, SMA Connector, Magnet mount   |

## OPERATING PRINCIPLE OF WELL - TANK COMMUNICATION SYSTEM

## EARTH LEAKAGE RELAY

| Product Code  | Description                     |
|---------------|---------------------------------|
| <b>TAR-30</b> | Earth Leakage Relay   30 mA-30A |

The earth leakage relay (TAR-30) is designed in a modular type to protect loads and lines against earth leakage currents. With its adjustable delay time and adjustable leakage current threshold (trip current), the TAR-30 can be used in various applications to prevent grounding and insulation faults.

- Adjustable delay time in the range of 0 – 9 seconds
- Compatible with 1-phase (Phase, Neutral), 3-phase (3 Phase or 3 Phase + Neutral) systems
- Indication of leakage current levels at 25%, 50%, 75%, and 100% (trip current) using LEDs based on the set leakage current threshold
- Test/reset capability via the device's front panel button or remotely using the device terminal connection
- Warning provided when CBCT is not connected or short-circuited at the device input.

## TOROIDAL CURRENT TRANSFORMERS

| Product Code    | Description                         | Bar Dimensions (mm) | CLASS | Accuracy Rating | Input Voltage  |
|-----------------|-------------------------------------|---------------------|-------|-----------------|----------------|
| <b>TTOR-45</b>  | Toroidal Current Transformer 45 mm  | <b>45 mm</b>        | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TTOR-80</b>  | Toroidal Current Transformer 80 mm  | <b>80 mm</b>        | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TTOR-100</b> | Toroidal Current Transformer 100 mm | <b>100 mm</b>       | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TTOR-150</b> | Toroidal Current Transformer 150 mm | <b>150 mm</b>       | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TTOR-210</b> | Toroidal Current Transformer 210 mm | <b>210 mm</b>       | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TTOR-310</b> | Toroidal Current Transformer 310 mm | <b>310 mm</b>       | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TDIK-360</b> | Rectangular CBCT 360x100 mm         | <b>360X100 mm</b>   | 0,5   | 1000/1          | 100-240V AC/DC |
| <b>TDIK-500</b> | Rectangular CBCT 500x100 mm         | <b>500X100 mm</b>   | 0,5   | 1000/1          | 100-240V AC/DC |

- The TTOR Series toroidal current transformers are suitable for panel applications.
- Coated with epoxy resin, these transformers provide high sensitivity and stable operation due to their features.
- Available in various hole diameters ranging from 45 mm to 500 mm.

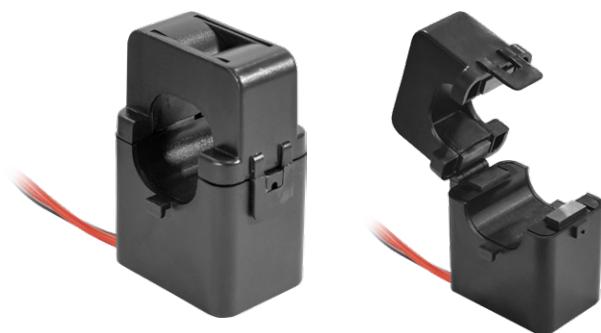

## L.V. CURRENT TRANSFORMERS

| Product Code | Busbar Dimensions (mm) | Class | Input / Output Current | Output Power (VA) |
|--------------|------------------------|-------|------------------------|-------------------|
| AT-100       | 30X10 mm               | 0,5   | 100/5                  | 1,5               |
| AT-125       | 30X10 mm               | 0,5   | 125/5                  | 2,5               |
| AT-150       | 30X10 mm               | 0,5   | 150/5                  | 2,5               |
| AT-200       | 30X10 mm               | 0,5   | 200/5                  | 2,5               |
| AT-250       | 30X10 mm               | 0,5   | 250/5                  | 5                 |
| AT-300       | 30X10 mm               | 0,5   | 300/5                  | 5                 |
| AT-400       | 40X10 mm               | 0,5   | 400/5                  | 5                 |
| AT-500       | 40X10 mm               | 0,5   | 500/5                  | 5                 |
| AT-600       | 40X10 mm               | 0,5   | 600/5                  | 7,5               |
| AT-750       | 60X10 mm               | 0,5   | 750/5                  | 15                |
| AT-800       | 60X10 mm               | 0,5   | 800/5                  | 15                |
| AT-1000      | 80X10 mm               | 0,5   | 1000/5                 | 15                |
| AT-1250      | 80X10 mm               | 0,5   | 1250/5                 | 20                |
| AT-1500      | 100X10 mm              | 0,5   | 1500/5                 | 25                |
| AT-1600      | 100X10 mm              | 0,5   | 1600/5                 | 25                |
| AT-2000      | 100X10 mm              | 0,5   | 2000/5                 | 30                |
| AT-2500      | 100X10 mm              | 0,5   | 2500/5                 | 40                |
| AT-3000      | 100X10 mm              | 0,5   | 3000/5                 | 40                |
| AT-4000      | 100X10 mm              | 0,5   | 4000/5                 | 40                |

## MINI SERIES L.V CURRENT TRANSFORMERS

| Product Code | Busbar Dimensions (mm) | Class | Input / Output Current | Output Power (VA) |
|--------------|------------------------|-------|------------------------|-------------------|
| ATM-40       | 20 mm                  | 1     | 40/5                   | 1                 |
| ATM-50       | 20 mm                  | 1     | 50/5                   | 1                 |
| ATM-60       | 20 mm                  | 1     | 60/5                   | 1                 |
| ATM-75       | 20 mm                  | 1     | 75/5                   | 1,5               |
| ATM-100      | 30 X10 mm              | 1     | 100/5                  | 1,5               |
| ATM-125      | 30 X10 mm              | 1     | 125/5                  | 1,5               |
| ATM-150      | 30 X10 mm              | 0,5   | 150/5                  | 2,5               |
| ATM-200      | 30 X10 mm              | 0,5   | 200/5                  | 2,5               |
| ATM-250      | 30 X10 mm              | 0,5   | 250/5                  | 2,5               |
| ATM-300      | 30X10 mm               | 0,5   | 300/5                  | 2,5               |
| ATM-400      | 30X10 mm               | 0,5   | 400/5                  | 2,5               |

## SPLIT CORE CURRENT TRANSFORMER

| Product Code    | Busbar Dimensions (mm) | Class | Input / Output Current | Output Power (VA) |
|-----------------|------------------------|-------|------------------------|-------------------|
| ATSM-241005901  | 24X24 mm               | 3     | 100/5                  | 1                 |
| ATSM-241255901  | 24X24 mm               | 3     | 125/5                  | 1                 |
| ATSM-241505902  | 24X24 mm               | 3     | 150/5                  | 1,5               |
| ATSM-241605 902 | 24X24 mm               | 3     | 160/5                  | 1,5               |
| ATSM-242005903  | 24X24 mm               | 3     | 200/5                  | 2,5               |
| ATSM-242505101  | 24X24 mm               | 1     | 250/5                  | 1                 |
| ATSM-243005101  | 24X24 mm               | 1     | 300/5                  | 1                 |

### DAKR-01D

#### UNDER CURRENT CONTROL RELAY

- X/5A Current Transformer Can Be Connected
- Seconder 0.5A - 5A
- Inrush (Inrush Current) Time Adjustable
- Under Current Fault Waiting Time Adjustable
- Under Current Set Value Adjustable

### TRM-30M

30 A

MONOFAZE

#### Monophase Current and Voltage Protection Digital Overload Relay

#### Innovative solutions in current control

- The current drawn can be seen. (0.5 - 30A)
- High voltage error 250V (Phase-Neutral)
- Low voltage error 150V (Phase-Neutral)
- Entering digital current set (0.5 - 30A)
- Entering error waiting time (0 - 20sec.)
- With external current transformer

KON-TER-18

KON-TER-12

## DIGITAL CONTACTOR & OVERLOAD RELAY

| Product Code | Description                               | Working Voltage | High CurrentSet (A) | Case Type | Delay Time(sec)  | Current Asymmetry 50% (Fixed)    | 3 x 3 Digit Display              | Contact Output (NC, NO)          | Error Output                     | Manual Mode                      | Number of contact usage          | Working Hours                    | Rail Type                        |
|--------------|---|-----------------|---------------------|-----------|------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|----------------------------------|
| KON-TER-12   | Contactor Thermal Overload (up to 4 kW)   | 100-240 VAC     | 1A - 12.0A          | TYPE 1    | 1 sec. - 10 sec. | <input checked="" type="radio"/> |
| KON-TER-18   | Contactor Thermal Overload (up to 7,5 kW) | 100-240 VAC     | 1A - 18.0A          | TYPE 1    | 1 sec. - 10 sec. | <input checked="" type="radio"/> |
| KON-TER-25   | Contactor Thermal Overload (up to 11 kW)  | 100-240 VAC     | 1A - 25.0A          | TYPE 1    | 1 sec. - 10 sec. | <input checked="" type="radio"/> |
| KON-TER-50   | Contactor Thermal Overload (up to 22 kW)  | 120-240 VAC     | 25A - 50.0A         | TYPE 2    | 1 sec. - 20 sec. | <input checked="" type="radio"/> |

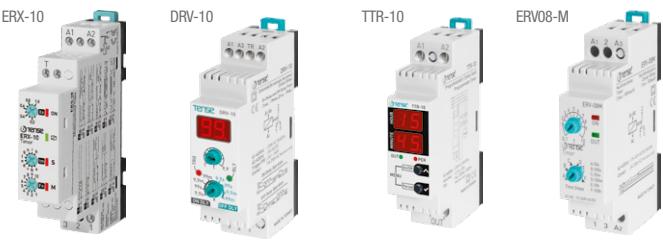

## DIGITAL CONTACTOR & THERMAL OVERLOAD RELAY

### KON-TER SERIES

Innovative Design, Two in One Product

- Measurement between 1A and 12A / 18A / 25A / 50A, intervention and silent operation
- 100-240 V AC Flexible operating voltage.
- Contactor and Digital thermal two products in one
- Realistic measurement and intervention sensitivity
- Complete solution for current protection of sensitive devices
- Stock and cost savings
- Manual operating mode (Manual Reset)
- Digital current set
- Digital error delay time (1 - 20 sec)
- Monitoring instant currents
- Monitoring the number of contact usage
- Monitoring working time
- Auxiliary contacts
- Error Output Contact
- 3 digits 3 segments display screen
- Informing with status LEDs
- Easy to use and easy to install
- With an internal current transformer
- 50% Current Asymmetry

## MULTIFUNCTIONAL TIME RELAYS

| Product Code   | Description   | Dimensions (mm)        | Time Range            | 24V AC DC | 220V AC | Rail Type | Package Quantity |
|----------------|---|------------------------|-----------------------|-----------|---------|-----------|------------------|
| <b>ERX-10</b>  | Multifunctional Time Relay (12-240 V AC / DC)             | <b>V-AUTOMAT DIN 2</b> | 0,1 sec.-30 hours     | ●         | ●       | ●         | <b>20</b>        |
| <b>DRV-10</b>  | Multifunctional Time Relay (220/24V AC)                   | <b>V-AUTOMAT DIN</b>   | 0,1 sec.-99 minutes   | ●         | ●       | ●         | <b>20</b>        |
| <b>TTR-10</b>  | Programable Time Relay (220V AC)                          | <b>V-OTOMAT DIN</b>    | 5-10-15-20-30 minutes | ●         | ●       | ●         | <b>20</b>        |
| <b>ERV-08M</b> | Multifunctional Timers (Operating Voltage 12V-240V AC/DC) | <b>V-AUTOMAT DIN</b>   | 1 sn-100 hours        |           | ●       |           | <b>20</b>        |

### TTR-10 PROGRAMMABLE TIMER

- 230V AC
- Real time clock
- Number of programs: 48/72/96/144/288
- Switching time: 5/10/15/25/30 minutes
- Relay on time can be adjusted
- 16A, 250VAC, 4000VA (Resistive Load)

### DRV-10 ON & OFF Delay Digital Timer

- 0.1 sec. - 99 minutes time setting range
- On delay and release delay option
- External triggering input
- 220V AC - 24V AC / DC two separate supply inputs
- 2x7 mm display screen
- 1x Relay output

### ERX-10 MULTIFUNCTIONAL TIMER

- 230VAC or 12-240V AC/DC
- Working: 0,1sec. – 30h.(Adjustable)
- 10 different working modes
- ON Delay
- OFF Delay
- Control OFF Delay
- Single Shot Leading Edge with Control Input
- ON delay and OFF Delay with Control
- Pulse Output with Control
- Equivalent Timed Flasher with Control ( $t=ton=t-off$ )

## DIGITAL TIMERS

| Product Code   | Description                            | Dimensions (mm) | Selectable Output Function Indicator       | Display                     | Panel Type | Start with supply | With Trigger 24V, 240V | START input (100...240VAC) | START input (max 32VDC) | RESET input (max 32VDC) | GATE input (max 32VDC) | 24VDC input (Proximity switch connection) | Out 1 output | Out 2 output | SS out output | Reserve Feature |  |

## COMMAND & CONTROL RELAYS

| Product Code     | Description   | Package Quantity |
|------------------|---|------------------|
| <b>ERS-07</b>    | Multi Functional Double Adjustable Right Left Relay (150-260 V AC) ON (Right-Left)<br>Time Interval: 1 sec. - 100 minutes / OFF (Intermediate Waiting) Time Range: 1 sec. - 100 minutes | 20               |
| <b>ERV-YU</b>    | Star Delta Relay, V-Automat Type, 220V AC (50-60 Hz), Star: 1sec. - 30 sec., Pass: 15 msec fixed.   | 20               |
| <b>ERV-ST</b>    | Start Stop Relay, Classic Box, 220V AC (50-60 Hz)   | 20               |
| <b>ERV-DG</b>    | Power Off Delay Relay, Classic Box, 220V AC (50-60 Hz), 0,1 sec. - 10 min.  | 10               |
| <b>TBM-50DIN</b> | Dishwasher Relay, 5-Stage washing, 01 sec - 30 sec. rinsing, Industrial purpose, Classic Box, 220V AC (50-60 Hz)  | 10               |

## FLASHER RELAYS

| Product Code   | Description                         | Dimensions (mm)             | ON Time Range     | OFF Time Range    | 220V AC | 12V DC | 24V AC/DC | Panel Type | Rail Type | Package Quantity |
|----------------|-------------------------------------|-----------------------------|-------------------|-------------------|---------|--------|-----------|------------|-----------|------------------|
| <b>DFR-72</b>  | Digital Multifunction Flasher Relay | <b>72x72 Panel Mounting</b> | 1 sec.-99 min.    | 1 sn-99 min.      | ●       |        | ●         |            |           |                  |
| <b>ERF-09</b>  | Multifunction Flasher Relay         | <b>Classic Box</b>          | 1 sec.-100 hours  | 1 sn-100 hours    | ●       |        |           | ●          |           | 10               |
| <b>ERV-09</b>  | Multifunction Flasher Relay         | <b>V-Automat DIN</b>        | 1 sec.-100 hours  | 1 sn-100 hours    | ●       |        | ●         | ●          | ●         | 20               |
| <b>ERV-09D</b> | Multifunction Flasher Relay         | <b>V-Automat DIN</b>        | 0,1 sec.-100 min. | 0,1 sec.-100 min. | ●       | ●      | ●         |            | ●         | 20               |
| <b>ERP-2F</b>  | Flasher Relay                       | <b>48x48 Panel Mounting</b> | 0,1 - 60 min.     | 0,1 - 60 min.     | ●       | ●      |           |            | ●         |                  |

## DIGITAL OUTPUT DIGITAL POTENTIOMETER

| Product Code  | Description            |
|---------------|------------------------|
| <b>PTM-01</b> | 0-10V analogue output  |
| <b>PTM-02</b> | 4-20mA analogue output |

### PTM-01 0-10V Digital Potentiometer with Analogue Output

- Microprocessor based digital potentiometer
- 0-10V analog output
- Analogue output control possibility with external digital inputs
- Ramp function
- Possibility of lower and upper limit adjustment (for Scale and Set values)
- SET value setting limitation (Unauthorized use The set feature can be turned off to prevent it)

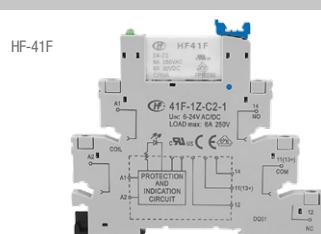

### PTM-02 4-20mA Digital Potentiometer with Analogue Output

- Microprocessor based digital potentiometer
- 4-20mA analog output
- Analogue output control possibility with external digital inputs
- Ramp function
- Possibility of lower and upper limit adjustment (for Scale and Set values)
- SET value setting limitation (Unauthorized use The set feature can be turned off to prevent it)

## POTENTIOMETER 22 MM (SINGLE TOUR)

| Product Code      | Description                     |
|-------------------|---------------------------------|
| <b>WL9 PT 5K</b>  | 5K 22 mm Plastic Potentiometer  |
| <b>WL9 PT 10K</b> | 10K 22 mm Plastic Potentiometer |

## RELAY + SOCKET

| Product Code  | Description                               |
|---------------|---|
| <b>HF-41F</b> | 6A Relay + Socket Screw Set. (1NO) 24V DC |

## LIQUID LEVEL RELAYS

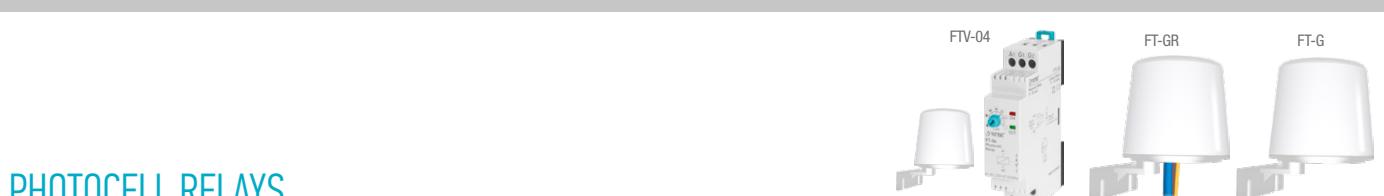

| Product Code     | Description  | Dimensions (mm)    | 220V AC (50/60 Hz) | 3 x 380V AC (50 Hz) + Neutral | < 100K Ω Setting | < 50K Ω Fixed | High - Low Voltage | Phase Sequence | Delay for Upper Electrode | Fixed Asymmetry | Package Quantity |
|------------------|--|--------------------|--------------------|-------------------------------|------------------|---------------|--------------------|----------------|---------------------------|-----------------|------------------|
| <b>SSR-05D</b>   | Liquid Level Relay (With microprocessor)                 | <b>CLASSIC BOX</b> | ●                  | ●                             | ●                | ●             | ●                  | ●              | ●                         | ●               | 12               |
| <b>VSR-05</b>    | Liquid Level Relay                                       | <b>V-AUTOMAT</b>   | ●                  | ●                             | ●                | ●             | ●                  | ●              | ●                         | ●               | 20               |
| <b>VSR-05-24</b> | Liquid Level Relay with 24V Supply                       | <b>V-AUTOMAT</b>   | ●                  | ●                             | ●                | ●             | ●                  | ●              | ●                         | ●               | 10               |
| <b>SSR-09</b>    | Liquid Level Relay for Steam Iron Boilers (Without Tank) | <b>CLASSIC BOX</b> | ●                  | ●                             | ●                | ●             | ●                  | ●              | ●                         | ●               | 10               |
| <b>SSR-19</b>    | Liquid Level Relay for Steam Iron Boilers (With Tank)    | <b>CLASSIC BOX</b> | ●                  | ●                             | ●                | ●             | ●                  | ●              | ●                         | ●               | 10               |

|                |  |
|----------------|--|
| <b>SSE-10</b>  | Liquid Level Electrode (Stainless)                     |
| <b>FLT-1.6</b> | Cable Floater, 1.6 meters, 8A 250V AC (50/60 Hz), IP68 |
| <b>FLT-3</b>   | Cable Floater, 3 meters, 8A 250V AC (50/60 Hz), IP68   |
| <b>FLT-5</b>   | Cable Floater, 5 meters, 8A 250V AC (50/60 Hz), IP68   |
| <b>FLT-10</b>  | Cable Floater, 10 meters, 8A 250V AC (50/60 Hz), IP68  |

## HYDROPHORE SEQUENCING RELAYS

| Product Code   | Description  | Dimensions (mm) | Thermal | 2 Pressure Switch Input | 3 Pressure Switch Input | 2 Booster Outputs | 3 Booster Outputs | Rail Type | Package Quantity |
|----------------|--|-----------------|---------|-------------------------|-------------------------|-------------------|-------------------|-----------|------------------|
| <b>HSR-S</b>   | Smart Hydrophore Sequencing Relay (with Adjustable Co-Aging) | <b>DIN TYPE</b> | ●       | ●                       | ●                       | ●                 | ●                 | ●         | ●                |
| <b>HSR-02X</b> | Hydrophore Sequencing Relay                                  | <b>DIN TYPE</b> | ●       | ●                       | ●                       | ●                 | ●                 | ●         | 20               |
| <b>HSR-03X</b> | Hydrophore Sequencing Relay                                  | <b>DIN TYPE</b> | ●       | ●                       | ●                       | ●                 | ●                 | ●         | 15               |

## PHOTOCELL RELAYS

| Product Code  | Description   |
|---------------|---|
| <b>FTV-04</b> | Photocell Relay, V-Automat DIN Body, 1 - 10 Lux adjustable, 5A / 250V AC relay output |
| <b>FT-GR</b>  | Photocell Relay, 10 Lux fixed, 7A / 250V AC relay output                              |
| <b>FT-G</b>   | Photocell Eye, (5 mm LDR)   |

**MDK-03** 30 A Direct (AC1 Load)

- 2x3 digits 9mm led display
- Adjustable high and low current
- Adjustable high and low voltage
- Adjustable upper electrode delay time
- Manual, semi-automatic and automatic resetting
- Monitoring 1x phase voltage
- Monitoring 1x phase current
- Extends electrode life
- Use with 2 or 3 electrodes
- Stock and cost savings

**TDK-30** 30 A Direct (AC1 Load)

- 3x3 digits 9mm led display
- Adjustable high and low current adjustment
- Adjustable high and low voltage
- Adjustable current and voltage asymmetry
- Adjustable upper electrode delay time
- Manual, semi-automatic and automatic resetting
- Displays 3 phase voltage
- Displays 3 phase current
- Adjustable liquid sensitivity
- Extends electrode life
- Err (no) fault contact
- Phase sequence check
- Use with 2 or 3 electrodes
- Indicates the number of contact releases
- Displays engine run time

**TDK-96** 250 A

- 128x64 LCD display
- Easy to use menu
- Adjustable high and low cosine set
- Adjustable high and low current,
- Adjustable high, low and asymmetry voltage
- Adjustable asymmetry voltage,
- Adjustable the upper electrode delay time,
- Adjustable liquid sensitivity,
- Keeping error records into memory,
- Star-Delta contact output,
- Flasher mode,
- Start / Stop memory,
- Notifies the engine maintenance time,
- Manual, automatic and semi-automatic reset
- External Start Stop input
- Adjustable 2x alarm outputs
- 50Hz and 60Hz operating frequency selection

## VOLTAGE CONTROL RELAYS

| Product Code    | Description   | Dimensions (mm) | Neutral | Without neutral | High Voltage Protection | Low Voltage Protection | Low Voltage Protection (Fixed) | Over Voltage Fuse | Underfeed Protection | Phase sequence | Phase Absence | Reset Delay Time | Error Delay Time | PTC | 9 Digits 9 mm Display | Rail Type | Package Quantity |

## GKE-40

### MONO-PHASE HIGH-LOW VOLTAGE PROTECTION RELAY

- Easy setup
- 3 digit display led
- Direct single-phase connection
- High/Low voltage protection
- Adjustable error delay time 0.1-600 sec.
- Error state led
- Adjustable over voltage 230-300 V
- Adjustable under voltage 120-210 V
- Maximum 40 A load

## UVR-21

### Under Voltage Protection Relay

- Operating Voltage (Un) : 415V AC and neutral
- Operating Frequency : 50/60 Hz.
- Operating Power : <6VA
- Operating Temperature : -20°C.....+55°C
- Under VOLTage : ~170V
- Display : On led and Out led
- Delayed (t) : 1min. - 10min.
- Weight : Max. 110gr.
- Contact : 5A/250V AC (Resistive Load)
- Mounting : Vertical assembled in the panel or assembled on the din rail
- Operating Altitude : <2000meter
- Cable Diameter : 1,5mm²

## PHASE PROTECTION RELAYS

| Product Code    | Description   | Dimensions (mm)      | High - Low Voltage Protection | Asymmetry Protection (5% - 25%) | Phase Absence | Phase Sequence | Asymmetry Protection ~ 30% (Fixed) | Asymmetry Protection ~ 40% (Fixed) | Reset Delay Time | Error Delay Time | PTC | Rail Type | Package Quantity |

## THERMOCOUPLES

| Product Code     | Description                               |
|------------------|---|
| <b>NT-310</b>    | Humidity And Temperature Probe            |
| <b>NTC-105</b>   | Temperature Probe (-30 °C + 105)          |
| <b>NTC-150</b>   | Temperature Probe (-30 °C + 150)          |
| <b>NTC-S-150</b> | Temperature Probe With Nut (-30 °C + 150) |

| Product Code  | Description (0 - 600 °C)                          |
|---------------|---|
| <b>TK-1</b>   | 1 mt. J Type Fe-const Thermocouple (Metric 6/8)   |
| <b>TK-1,5</b> | 1,5 mt. J Type Fe-const Thermocouple (Metric 6/8) |
| <b>TK-2</b>   | 2 mt. J Type Fe-const Thermocouple (Metric 6/8)   |
| <b>TK-2,5</b> | 2,5 mt. J Type Fe-const Thermocouple (Metric 6/8) |
| <b>TK-3</b>   | 3 mt. J Type Fe-const Thermocouple (Metric 6/8)   |
| <b>TK-4</b>   | 4 mt. J Type Fe-const Thermocouple (Metric 6/8)   |
| <b>TK-5</b>   | 5 mt. J Type Fe-const Thermocouple (Metric 6/8)   |
| <b>PT-1</b>   | 1 mt. PT-100 Thermocouple (Metric 6/8)            |
| <b>PT-2</b>   | 2 mt. PT-100 Thermocouple (Metric 6/8)            |
| <b>PT-3</b>   | 3 mt. PT-100 Thermocouple (Metric 6/8)            |

## SOLID STATE RELAYS (SSR)

| Product Code     | Current | Type                | Input    | Output     |
|------------------|---------|---------------------|----------|------------|
| <b>1SS-25-1</b>  | 25A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>1SS-40-1</b>  | 40A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>1SS-50-1</b>  | 50A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>1SS-75-1</b>  | 75A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>1SS-120-1</b> | 120A    | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>3SS-25-1</b>  | 25A     | <b>THREE-PHASE</b>  | 3-32 VDC | 24-380 VAC |
| <b>3SS-40-1</b>  | 40A     | <b>THREE-PHASE</b>  | 3-32 VDC | 24-380 VAC |
| <b>3SS-75-1</b>  | 75A     | <b>THREE-PHASE</b>  | 3-32 VDC | 24-380 VAC |

## RAIL MOUNTED COOLERS

| Product Code     | Current                                      |
|------------------|--|
| <b>ISS-M-25A</b> | Rail Mounted Single-Phase Cooler for 25A SSR |
| <b>ISS-M-40A</b> | Rail Mounted Single-Phase Cooler for 40A SSR |
| <b>ISS-M-75A</b> | Rail Mounted Single-Phase Cooler for 75A SSR |
| <b>ISS-T-25A</b> | Rail Mounted Three-Phase Cooler for 25A SSR  |

## RAIL MOUNTED SSR WITH COOLER

| Product Code       | Current | Type                | Input    | Output     |
|--------------------|---------|---------------------|----------|------------|
| <b>IG3PA-4825D</b> | 25A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |
| <b>IG3PA-4840D</b> | 40A     | <b>SINGLE-PHASE</b> | 3-32 VDC | 24-380 VAC |

## DT-48EM / DT-72EM DIGITAL TEMPERATURE CONTROLLER

- Microprocessor based, temperature control device
- Temperature measurement scale from 0 C ° to +1700 C °
- Working with J, K, Pt100, R, S, T Type Thermocouples
- Advanced PID feature
- Suitable for hot runners
- AUTO-TUNE feature
- ON-OFF operation feature
- Soft Start (Ramp) feature
- Decimal measurement scale
- 1x Relay, 1x SSR Output
- Possibility to adjust upper / lower limit, hysteresis and offset for set values
- High sensitivity and accuracy
- Keeping program and control parameters continuously in memory
- Easy connection with plug-in terminal blocks
- Password protected

## COUNTERS

| Product Code  | Description   |
|---------------|---|
| <b>DS-72A</b> | 72x72 sizes, double SET, double output, CP1, CP2, RESET input, dry contact, proximity and enCoder input (NPN / PNP / Totem Pole), Double display, 6 digits, multiplier value can be entered, with reserve, SSR output, forward-backward counter |
| <b>DS-72</b>  | 72x72 sizes, double SET, double output, CP1, CP2, RESET input, dry contact, proximity and enCoder input (NPN / PNP / Totem Pole), Double display, 6 digits, multiplier value can be entered, with reserve, SSR output, forward-backward counter |
| <b>DS-48</b>  | 48x48 sizes, double SET, double output, CP1, CP2, RESET input, dry contact, proximity and enCoder input (NPN / PNP / Totem Pole), Double display, 6 digits, multiplier value can be entered, with reserve, SSR output, forward-backward counter |

## PERMANENT CIRCUIT CAPACITORS

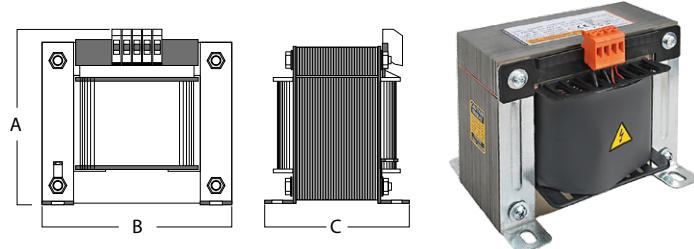

| Capacity Range | Capacity deviation | Rated Voltage  | Package Quantity |
|----------------|--------------------|----------------|------------------|
| <b>3 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>4 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>5 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>6 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>7 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>8 µF</b>    | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>10 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>12 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>12,5 µF</b> | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>15 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>20 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>25 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>30 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>35 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>40 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>45 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>50 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>60 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>80 µF</b>   | +/- 5%             | 450VAC,50/60Hz | 10               |
| <b>100 µF</b>  | +/- 5%             | 450VAC,50/60Hz | 10               |

## INITIAL MOVEMENT CAPACITORS

| Capacity Range    | Capacity deviation | Rated Voltage  | Package Quantity |
|-------------------|--------------------|----------------|------------------|
| <b>124-149 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>130-156 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>145-175 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>161-193 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>189-227 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>216-259 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>233-280 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |
| <b>280-333 µF</b> | +/- 10%            | 250VAC,50/60Hz | 10               |

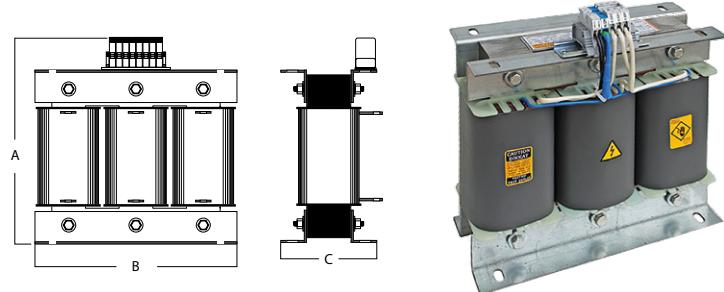

## SINGLE-PHASE SHUNT REACTORS (INDUCTIVE LOAD REACTORS)

| Product Code     | Description    | Power (kVAr)<br>230V AC | Thermal Protection | Sheet Type | A (mm) | B (mm) | C (mm) | Inductance (mH) | Current (A) | Weight (kg) |
|------------------|----------------|-------------------------|--------------------|------------|--------|--------|--------|-----------------|-------------|-------------|
| <b>TNS-0,5</b>   | Shunt Reactors | 0,5                     |                    | E-I        | 120    | 120    | 77     | 338             | 2,17        | 3,1         |
| <b>TNS-1</b>     | Shunt Reactors | 1,0                     |                    | E-I        | 145    | 150    | 100    | 169             | 4,35        | 6,3         |
